

DropTop™ Single 29 Classic

Installation Instructions.

DropTop™ Single 29 Classic

Installation Guidelines

Please read and follow these instructions carefully to ensure the correct installation of your DropTop™ wall-mounted desk. Failure to adhere to the instructions may result in product damage, personal injury, or voiding of the product warranty.

Before You Begin:

- Remove the contents from the package and place them on a protective surface to prevent damage.
- Compare the package contents with the Supplied Parts List to ensure all components are intact and undamaged.
- Thoroughly read and review all instructions provided in your DropTop™ Installation guide before beginning assembly.

If you encounter any issues or have questions during the assembly process, please contact our customer support team for assistance.

DropTop.™ Single 29 Classic dimensions.

Exterior dimensions when Closed:

Height: 68cm

Width: 75cm

Depth: 16.5cm

Worktop Dimensions:

Width: 88cm

Depth: 58cm

The Single Classic supports up to 75kg in weight

Weight - 35kg

It is recommended to have two people for safely mounting your DropTop.

DropTop™ Monitor space dimensions

The Single 29 Classic is designed to house a 24-inch Monitor or a 29-inch Ultrawide monitor only

Available Monitor Space dimensions:

Height: 35cm

Width: 71cm

Depth: 6 cm

Please note your monitors Depth should not exceed 6 cm.

In choosing a monitor for your DropTop Single Classic, it is important to consider both the depth of your monitor and the depth of the mount bracket to ensure that they do not exceed 11cm in total depth.

Mount Bracket Depth
Depth: 5cm

Extendable Arm Monitor Mount

One extendable monitor mounts is included with your DropTop Single Classic, providing tilt, swivel, and rotation functionality.

Ensure your monitor is VESA compatible with 75x75mm or 100x100mm.

DropTop.™ Single 29 Classic Wall Plate.

The Wall Plate is temporarily secured to the back of the DropTop for secure transit. Remove the two securing screws to detach it from the DropTop.

DropTop Electrical Wiring

Electrical wiring is embedded into the back of your desk. Take care not to drill or damage any embedded wires while installing your desk.

Installing your own monitor.

1

a -Wall Plate & Articulating Arms(1)

b-VESA Plate(1)

c-Wrench(1)

d-Bolt(2)

f- M4 ×12Bolt

l-Cable Tie(3)

m-Allen Key(1)

2 x M6 Bolt

2

Carefully place your monitors face down on a clean, flat surface. Attach the VESA Plate-b to the back of your monitor using the M4 Bolts-f provided.

4

Front View

Back View

Attach the Wall Plate & Articulating Arms-A to the VESA slot on the back of the DropTop, using the 2 x M6 bolts provided.

5

Fully extend the articulating arms out.

5

Hook the VESA Plate-b to the Socket on the fully extended arms.

6

 2 x M4 Bolt - d

Secure the VESA Plate-b to the articulating arm using the 2x M4 Bolt-d provided.

Use the wrench provided to adjust the tilting angle of the VESA Plate-b.

7

The mount bracket should be positioned as indicated in the diagram to ensure proper and mounting of the monitors.

8

Back View

To adjust the height of the mount along the VESA slot, slightly loosen the M6 bolts on the back, then reposition the mount to the desired height and tighten the bolts again.

Cable Management

Before mounting your DropTop onto the wall, connect any cables to your monitor and feed them through the oval cable management grommet to keep them tidy.

The central cable housing contains the electrical cable that powers your DropTop.

To access it, on the back remove the screws from the wood cover.

The central cable housing can be used to hide extra cables or pass through a wired Ethernet cable, if needed.

To re-attach the wood cover, screw in the screws.

Mounting the Wall plate.

Your DropTop.™ desk can be installed at any height that best suits your needs and preferences.

Depending on your preferred sitting position, you can install your DropTop.™ on the wall between 65cm and 80cm.

DropTop.™ Single 29 Wall plate height.

The height to install the wall plate should be measured from the top of the desired desk height to the top of the recessed area of the wall plate.

Installing on a brick and concrete wall.

1

Use the wall plate as a guide and mark the position of the fixing holes with a pencil.

The height to install the wall plate should be measured from the top of the desired desk height to the top of the recessed area of the wall plate.as previously explained.

2

Drill 6 x 8mm sized holes.

3

4

To safely mount the desk, ensure that the DropTop.™ is locked before lifting it onto the wall plate. The DropTop.™ should fit snugly in the recess of the wall plate.

5

The detachable power cable
is connected to the base of
your desk.

Installing on Plasterboard/Drywall.

Use the wall plate as a guide and mark the position of the fixing holes with a pencil.

The height to install the wall plate should be measured from the top of the desired desk height to the top of the recessed area of the wall plate as previously explained.

Using the 25mm Spade Bit, cut 3 holes of 25mm diameter centred on the top row of your wall plate pencil markings for the Geefix.

Drill 3 holes of 8mm diameter for the wall plugs.

3

GeeFix Fixings

Assemble your GeeFix wall anchor system by threading the supplied pullcord through the round wall plug, the curved back plate, and back through the wall plug.

While holding onto the pullcord, feed the curved back plate into the hole and centre on the 1" hole.

While keeping light tension on the pullcord slide the wall plug into the 1" hole to align with the holes on the back plate.

While keeping firm tension on the pullcord, screw the large screw into the centre hole until the GeeFix becomes firm, but do not over tighten. Keeping tension on the pullcord will keep the back plate in place during installation.

Pull out the pullcord but do not discard. You can use the same pullcord on additional GeeFix.

Screw in the 2 smaller screws on either side of the large screw and tighten until the GeeFix is firmly secured but do not over tighten.

Remove the centre screw

DropTop Artwork

The Artwork is attached to the DropTop using green buttons that fit into the black oval securing clips embedded in the worktop.

Green buttons are attached to the back of the artwork.

Black oval securing clips.

Lock your DropTop

To attach the artwork, make sure the green buttons are securely slotted into the black oval securing clips.

Lock your DropTop

To remove the artwork,
gently push up from the
base of the frame to
dislodge the green buttons.

DropTop™ Single 29 Classic

Thank you for choosing to purchase your DropTop™ wall-mounted desk. We are delighted to have you as part of our community. You're taking a wonderful step towards improving your workspace and achieving a better work-life balance. We couldn't be more thrilled to support you in this journey.

Our team has put immense effort into designing and crafting the DropTop™ desk range to ensure it meets the highest standards of quality and functionality. We sincerely hope it transforms your workspace into a more productive and enjoyable environment.
